

MIC Reports Monthly Financial Results-June

Taipei, July 8, 2005 Marketch International Corporation (TAIEX:6196), (MIC) today reports its un-audited monthly financial results for June. Net sales for June reached NT\$ 1,421 million, while net income before tax totaled NT\$89 million, and earnings before tax per share were NT\$0.85 based on 104.8 million shares.

For January through June 2005, net sales were NT\$4,937 million while net income before tax and earning per share before tax came to NT\$262 million and NT\$2.50 per share, respectively.

For sales breakdown by product categories, due to quarter-end effect, engineering income for June reached 1,037 NT\$ million, a record high of 2005. Sales income reached NT\$333 million, slightly increased by 7% from May and in line with previously released expectation of gradual growth for the second quarter of 2005. With the utilization of TSPB factory this year, MIC will reach a more integral business platform in which sale, engineering and manufacturing incomes will all come to a significant contribution to the sales growth for 2005.
