AND SUBSIDIARIES
CONSOLIDATED FINANCIAL STATEMENTS AND
REVIEW REPORT OF INDEPENDENT
ACCOUNTANTS
JUNE 30, 2018 AND 2017**

For the convenience of readers and for information purpose only, the auditors' report and the accompanying financial statements have been translated into English from the original Chinese version prepared and used in the Republic of China. In the event of any discrepancy between the English version and the original Chinese version or any differences in the interpretation of the two versions, the Chinese-language auditors' report and financial statements shall prevail.

REVIEW REPORT OF INDEPENDENT ACCOUNTANTS TRANSLATED FROM CHINESE

To the Board of Directors and Shareholders of Marketech International Corp.

Introduction

We have reviewed the accompanying consolidated balance sheets of Marketech International Corp. and subsidiaries (the “Group”) as at June 30, 2018 and 2017, and the related consolidated statements of comprehensive income for the three months and six months then ended, as well as the statements of changes in equity and of cash flows for the six months then ended, and notes to the consolidated financial statements, including a summary of significant accounting policies. Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with “Regulations Governing the Preparation of Financial Reports by Securities Issuers” and International Accounting Standard 34, “Interim Financial Reporting” as endorsed by the Financial Supervisory Commission. Our responsibility is to express a conclusion on these consolidated financial statements based on our reviews.

Scope of Review

Except as explained in the following paragraph, we conducted our reviews in accordance with the Statement of Auditing Standards No. 65 “Review of Financial Information Performed by the Independent Auditor of the Entity” in the Republic of China. A review of consolidated financial statements consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Basis for Qualified Conclusion

As explained in Notes 4(3) and 6(6), we did not review the financial statements of certain insignificant consolidated subsidiaries and investments accounted for using equity method, which statements reflect total assets (including investments accounted for using equity method) of NT\$942,166 thousand and NT\$843,551 thousand, constituting 5% and 6% of the consolidated total assets, and total liabilities of NT\$165,704 thousand and NT\$132,304 thousand, constituting 1% and 1% of the consolidated total

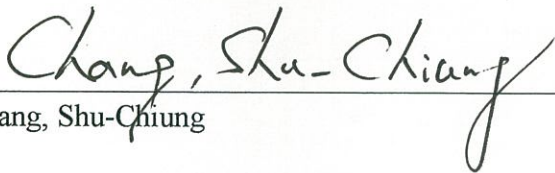

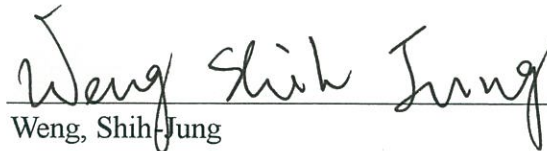

資誠

liabilities as at June 30, 2018 and 2017, and total comprehensive income (loss) of NT(\$7,293) thousand, NT(\$23,622) thousand, NT(\$16,078) thousand and NT(\$66,771) thousand, constituting (3%), (18%), (4%) and (30%) of the consolidated total comprehensive income for the three months and six months then ended, respectively. These amounts were based solely on the unreviewed financial statements of these companies as of June 30, 2018 and 2017.

Qualified Conclusion

Except for the adjustments to the consolidated financial statements, if any, as might have been determined to be necessary had the financial statements of certain consolidated subsidiaries and investments accounted for using equity method been reviewed by independent accountants, that we might have become aware of had it not been for the situation described above, based on our reviews, nothing has come to our attention that causes us to believe that the accompanying consolidated financial statements do not present fairly, in all material respects, the consolidated financial position of the Group as at June 30, 2018 and 2017, and of its consolidated financial performance for the three months and six months then ended, and its consolidated cash flows for the six months then ended in accordance with “Regulations Governing the Preparation of Financial Reports by Securities Issuers” and International Accounting Standard 34, “Interim Financial Reporting” as endorsed by the Financial Supervisory Commission.

MARKETECH INTERNATIONAL CORP. AND SUBSIDIARIES
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

JUNE 30, 2018 AND 2017

(EXPRESSED IN THOUSANDS OF NEW TAIWAN DOLLARS,
EXCEPT AS OTHERWISE INDICATED)
(REVIEWED, NOT AUDITED)

1. ORGANIZATION AND OPERATIONS

Marketch International Corp. (the “Company”) was incorporated in the Republic of China (R.O.C) on December 27, 1988. On October 17, 2002, the Company’s common shares were officially listed on the Taiwan Over-The-Counter Securities Exchange and on May 24, 2004, the shares were transferred to be listed on the Taiwan Stock Exchange. The Company and its subsidiaries (collectively referred herein as the “Group”) are mainly engaged in (i) import and trade of various integrated circuits, semiconductors, electrical and computer equipment and materials, chemicals, gas, components; (ii) factory affair and mechatronic system including clean room, automatic supply system of (specialty) gas and chemicals, monitor system, Turn-key and Hook-up Project and (iii) design and manufacturing of customized equipment.

2. THE DATE OF AUTHORISATION FOR ISSUANCE OF THE CONSOLIDATED FINANCIAL STATEMENTS AND PROCEDURES FOR AUTHORISATION

The consolidated financial statements were reported to the Board of Directors on August 1, 2018.

3. APPLICATION OF NEW STANDARDS, AMENDMENTS AND INTERPRETATIONS

(1) Effect of the adoption of new issuances of or amendments to International Financial Reporting Standards (“IFRS”) as endorsed by the Financial Supervisory Commission (“FSC”)

New standards, interpretations and amendments endorsed by the FSC effective from 2018 are as follows:

<u>New Standards, Interpretations and Amendments</u>	<u>Effective date by International Accounting Standards Board</u>
Amendments to IFRS 2, ‘Classification and measurement of share-based payment transactions’	January 1, 2018
Amendments to IFRS 4, ‘Applying IFRS 9 Financial instruments with IFRS 4 Insurance contracts’	January 1, 2018
IFRS 9, ‘Financial instruments’	January 1, 2018
IFRS 15, ‘Revenue from contracts with customers’	January 1, 2018
Amendments to IFRS 15, ‘Clarifications to IFRS 15 Revenue from contracts with customers’	January 1, 2018
Amendments to IAS 7, ‘Disclosure initiative’	January 1, 2017
Amendments to IAS 12, ‘Recognition of deferred tax assets for unrealised losses’	January 1, 2017

New Standards, Interpretations and Amendments	Effective date by International Accounting Standards Board
Amendments to IAS 40, 'Transfers of investment property'	January 1, 2018
IFRIC 22, 'Foreign currency transactions and advance consideration'	January 1, 2018
Annual improvements to IFRSs 2014-2016 cycle— Amendments to IFRS 1, 'First-time adoption of International Financial Reporting Standards'	January 1, 2018
Annual improvements to IFRSs 2014-2016 cycle— Amendments to IFRS 12, 'Disclosure of interests in other entities'	January 1, 2017
Annual improvements to IFRSs 2014-2016 cycle— Amendments to IAS 28, 'Investments in associates and joint ventures'	January 1, 2018

Except for the following, the above standards and interpretations have no significant impact to the Group's financial condition and financial performance based on the Group's assessment.

A. IFRS 9, 'Financial instruments'

- (a) Classification of debt instruments is driven by the entity's business model and the contractual cash flow characteristics of the financial assets, which would be classified as financial asset at fair value through profit or loss, financial asset measured at fair value through other comprehensive income or financial asset measured at amortised cost. Equity instruments would be classified as financial asset at fair value through profit or loss, unless an entity makes an irrevocable election at inception to present subsequent changes in the fair value of an investment in an equity instrument that is not held for trading in other comprehensive income.
- (b) The impairment losses of debt instruments are assessed using an 'expected credit loss' approach. An entity assesses at each balance sheet date whether there has been a significant increase in credit risk on that instrument since initial recognition to recognise 12-month expected credit losses or lifetime expected credit losses (interest revenue would be calculated on the gross carrying amount of the asset before impairment losses occurred); or if the instrument that has objective evidence of impairment, interest revenue after the impairment would be calculated on the book value of net carrying amount (i.e. net of credit allowance). The Group shall always measure the loss allowance at an amount equal to lifetime expected credit losses for trade receivables that do not contain a significant financing component.
- (c) The Group has elected not to restate prior period financial statements using the modified retrospective approach under IFRS 9. For details of the significant effect as at January 1, 2018, please refer to Notes 12(3)B and C.

B. IFRS 15, 'Revenue from contracts with customers' and amendments

- (a) IFRS 15, 'Revenue from contracts with customers' replaces IAS 11, 'Construction contracts', IAS 18 'Revenue' and relevant interpretations. According to IFRS 15, revenue is recognised when a customer obtains control of promised goods or services. A customer obtains control of goods or services when a customer has the ability to direct the use of, and obtain substantially all of the remaining benefits from, the asset.

The core principle of IFRS 15 is that an entity recognises revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. An entity recognises revenue in accordance with that core principle by applying the following steps:

- Step 1: Identify contracts with customer.
 Step 2: Identify separate performance obligations in the contract(s).
 Step 3: Determine the transaction price.
 Step 4: Allocate the transaction price.
 Step 5: Recognise revenue when the performance obligation is satisfied.

Further, IFRS 15 includes a set of comprehensive disclosure requirements that requires an entity to disclose sufficient information to enable users of financial statements to understand the nature, amount, timing and uncertainty of revenue and cash flows arising from contracts with customers.

- (b) The Group has elected not to restate prior period financial statements and recognised the cumulative effect of initial application as retained earnings at January 1, 2018, using the modified retrospective approach under IFRS 15. The significant effects of adopting the modified transition as of January 1, 2018 are summarised below:

i. Presentation of assets and liabilities in relation to contracts with customers

In line with IFRS 15 requirements, the Group changed the presentation of certain accounts in the balance sheets as follows:

- (i) Under IFRS 15, construction contracts whereby services have been rendered but not yet billed are recognised as contract assets but were previously presented as construction contracts receivable in the balance sheet. As of January 1, 2018, the balances amounted to \$3,163,858.
- (ii) Under IFRS 15, liabilities in relation to construction contracts are recognised as contract liabilities, but were previously presented as construction contracts payable in the balance sheet. As of January 1, 2018, the balance amounted to \$1,851,105 and was reclassified to contract liabilities-current.
- (iii) Under IFRS 15, liabilities in relation to sales contracts are recognised as contract liabilities, but were previously presented as advance receipts in the balance sheet. As of January 1, 2018, the balance amounted to \$961,752 and was reclassified to contract liabilities-current.

ii. Please refer to Note 12(5) for disclosure in relation to the first application of IFRS 15.

(2) Effect of new issuances of or amendments to IFRSs as endorsed by the FSC but not yet adopted by the Group

New Standards, Interpretations and Amendments	Effective date by International Accounting Standards Board
Amendments to IFRS 9, 'Prepayment features with negative compensation'	January 1, 2019
IFRS 16, 'Leases'	January 1, 2019
Amendments to IAS 19, 'Plan amendment, curtailment or settlement'	January 1, 2019
Amendments to IAS 28, 'Long-term interests in associates and joint ventures'	January 1, 2019
IFRIC 23, 'Uncertainty over income tax treatments'	January 1, 2019
Annual improvements to IFRSs 2015-2017 cycle	January 1, 2019

Except for the following, the above standards and interpretations have no significant impact to the

Group's financial condition and financial performance based on the Group's assessment. The quantitative impact will be disclosed when the assessment is complete.

IFRS 16, 'Leases'

IFRS 16, 'Leases', replaces IAS 17, 'Leases' and related interpretations and SICs. The standard requires lessees to recognise a 'right-of-use asset' and a lease liability (except for those leases with terms of 12 months or less and leases of low-value assets). The accounting stays the same for lessors, which is to classify their leases as either finance leases or operating leases and account for those two types of leases differently. IFRS 16 only requires enhanced disclosures to be provided by lessors.

In the first quarter of 2018, the Group reported to the Board of Directors that IFRS 16 has material impact to the Group.

The Group expects to recognise the lease contract of lessees in line with IFRS 16. However, the Group intends not to restate the financial statements of prior period (collectively referred herein as the "modified retrospective approach"), and the effects will be adjusted on January 1, 2019.

(3) IFRSs issued by IASB but not yet endorsed by the FSC

New standards, interpretations and amendments issued by IASB but not yet included in the IFRSs as endorsed by the FSC are as follows:

<u>New Standards, Interpretations and Amendments</u>	<u>Effective date by International Accounting Standards Board</u>
Amendments to IFRS 10 and IAS 28, 'Sale or contribution of assets between an investor and its associate or joint venture'	To be determined by International Accounting Standards Board
IFRS 17, 'Insurance contracts'	January 1, 2021

The above standards and interpretations have no significant impact to the Group's financial condition and financial performance based on the Group's assessment.

4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The principal accounting policies adopted are consistent with Note 4 in the consolidated financial statements for the year ended December 31, 2017, except for the compliance statement, basis of preparations, basis of consolidation and additional policies as set out below. These policies have been consistently applied to all the periods presented, unless otherwise stated.

(1) Statement of compliance

- A. The consolidated financial statements of the Group have been prepared in accordance with the "Regulations Governing the Preparation of Financial Reports by Securities Issuers" and IAS 34, 'Interim Financial Reporting' as endorsed by the FSC.
- B. These consolidated financial statements should be read along with the consolidated financial statements as of and for the year ended December 31, 2017.

(2) Basis of preparation

- A. Except for the following items, the consolidated financial statements have been prepared under the historical cost convention:
- (a) Financial assets and financial liabilities (including derivative instruments) at fair value through profit or loss.
 - (b) Financial assets at fair value through other comprehensive income. Available-for-sale financial assets measured at fair value.
 - (c) Liabilities on cash-settled share-based payment arrangements measured at fair value.
 - (d) Defined benefit liabilities recognised based on the net amount of pension fund assets less present value of defined benefit obligation.
- B. The preparation of financial statements in conformity with IFRSs requires the use of certain critical accounting estimates. It also requires management to exercise its judgement in the process of applying the Group's accounting policies. The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the consolidated financial statements are disclosed in Note 5.
- C. In adopting IFRS 9 and IFRS 15 effective January 1, 2018, the Group has elected to apply modified retrospective approach whereby the cumulative impact of the adoption was recognised as retained earnings or other equity as of January 1, 2018 and the financial statements for the year ended December 31, 2017 and the second quarter of 2017 were not restated. The financial statements for the year ended December 31, 2017 and the second quarter of 2017 were prepared in compliance with International Accounting Standard 39 ('IAS 39'), International Accounting Standard 11 ('IAS 11'), International Accounting Standard 18 ('IAS 18') and related financial reporting interpretations. Please refer to Notes 12(4) and (5) for details of significant accounting policies and details of significant accounts.

(3) Basis of consolidation

- A. Basis for preparation of consolidated financial statements:
The basis for preparation of these consolidated financial statements is the same as that for the preparation of the consolidated financial statements as of and for the year ended December 31, 2017.
- B. The subsidiaries included in the consolidated financial statements:

Note 1 : The financial statements of the entity as of and for the six months ended June 30, 2018 and 2017 were not reviewed by the independent accountants as the entity did not meet the definition of significant subsidiary.

Note 2 : The Company holds less than 50% share ownership in ADAT Technology Ltd. and its subsidiary – SKMIC (Wuxi) Corp., however, as the definition of control is met, the subsidiary is included in the consolidated entities.

C. Subsidiaries not included in the consolidated financial statements: None.

D. Adjustments for subsidiaries with different balance sheet dates: None.

E. Significant restrictions: None.

F. Subsidiaries that have non-controlling interests that are material to the Group: As of June 30, 2018, December 31, 2017 and June 30, 2017, the non-controlling interests amounted to \$31,573, (\$975), and (\$3,687), respectively. Subsidiaries that have non-controlling interests are not material to the Group.

(4) Financial assets at fair value through profit or loss

A. Financial assets at fair value through profit or loss are financial assets that are not measured at amortised cost or fair value through other comprehensive income.

B. On a regular way purchase or sale basis, financial assets at fair value through profit or loss are recognised and derecognised using trade date accounting.

- C. At initial recognition, the Group measures the financial assets at fair value and recognises the transaction costs in profit or loss. The Group subsequently measures the financial assets at fair value, and recognises the gain or loss in profit or loss.
- D. The Group recognizes the dividend income when the right to receive payment is established, future economic benefits associated with the dividend will flow to the Group and the amount of the dividend can be measured reliably.

(5) Accounts and notes receivable

- A. Accounts and notes receivable entitle the Group a legal right to receive consideration in exchange for transferred goods or rendered services.
- B. The short-term accounts and notes receivable without bearing interest are subsequently measured at initial invoice amount as the effect of discounting is immaterial.

(6) Impairment of financial assets

At each reporting date, for accounts receivable, contract assets and financial guarantee contracts that have a significant financing component, the Group recognises the impairment provision for 12 months expected credit losses if there has not been a significant increase in credit risk since initial recognition or recognises the impairment provision for the lifetime expected credit losses (ECLs) if such credit risk has increased since initial recognition after taking into consideration all reasonable and verifiable information that includes forecasts. On the other hand, for accounts receivable or contract assets that do not contain a significant financing component, the Group recognises the impairment provision for lifetime ECLs.

(7) Non-hedging and embedded derivatives

Non-hedging derivatives are initially recognised at fair value on the date a derivative contract is entered into and recorded as financial assets or financial liabilities at fair value through profit or loss. They are subsequently remeasured at fair value and the gains or losses are recognised in profit or loss.

(8) Income tax

If a change in tax rate is enacted or substantively enacted in an interim period, the Group recognises the effect of the change immediately in the interim period in which the change occurs. The effect of the change on items recognised outside profit or loss is recognised in other comprehensive income or equity while the effect of the change on items recognised in profit or loss is recognised in profit or loss.

(9) Revenue recognition

A. Sales of goods

- (a) The Group manufactures and sells a range of various integrated circuits, semiconductors, electrical and computer equipment and materials, chemicals, gas, components. Sales are recognised when control of the products has transferred, being when the products are delivered to the customers, the customers have full discretion over the channel and price to sell the products, and there is no unfulfilled obligation that could affect the customers' acceptance of the products. Delivery occurs when the products have been shipped to the specific location, the risks of obsolescence and loss have been transferred to the customers, and either the customers have accepted the products in accordance with the sales contract, or the Group has objective evidence that all criteria for acceptance have been satisfied.

- (b) Sales revenue from products was recognised at contract price, and the amount was limited to the part that is highly possible of not incurring a significant reversal. The sales usually are made with a credit term of 30 days, which is consistent with market practice. As the time interval between the transfer of committed goods or service and the payment of customer may possibly exceed one year, the Group does not adjust the transaction price to reflect the time value of money. However, the individual financial components of contracts are not significant.
- (c) A receivable is recognised when the goods are delivered as this is the point in time that the consideration is unconditional because only the passage of time is required before the payment is due.

B. Engineering System Service

- (a) The Group provides factory affair and mechatronic system including clean room, automatic supply system of (specialty) gas and chemicals, monitor system, turn-key and hook-up project services. Construction revenue from providing services is recognised in the accounting period in which the services are rendered. For fixed-price contracts, revenue is recognised based on the actual service provided to the end of the reporting period as a proportion of the total services to be provided. This is determined based on the actual costs spent relative to the total expected costs. The customer pays at the time specified in the payment schedule. If the services rendered exceed the payment, a contract asset is recognised. If the payments exceed the services rendered, a contract liability is recognised.
- (b) The Group's estimate of revenue, costs and progress towards complete satisfaction of a performance obligation is subject to a revision whenever there is a change in circumstances. Any increase or decrease in revenue or costs due to an estimate revision is reflected in profit or loss during the period when the management become aware of the changes in circumstances.

5. CRITICAL ACCOUNTING JUDGEMENTS, ESTIMATES AND KEY SOURCES OF ASSUMPTION UNCERTAINTY

There was no significant change in the reporting period. Please refer to Note 5 in the consolidated financial statements as of and for the year ended December 31, 2017.

A. The Company issued the 3rd domestic unsecured convertible bonds, as approved by the regulatory authority on August 1, 2016. The terms and conditions are as follows:

- (a) Total issuance amount: \$500,000
- (b) Issuance period: 3 years, and a circulation period from August 22, 2016 to August 22, 2019.
- (c) Coupon rate: 0%
- (d) Conversion period: The bondholders have the right to ask for conversion of the bonds into common shares of the Company during the period from the date after one month of the bonds before the maturity date, except the stop transfer period as specified in the terms of the bonds or the laws/regulations. The rights and obligations of the new shares converted from the bonds are the same as the issued and outstanding common shares.
- (e) The conversion price of the bonds is set up based on the pricing model in the terms of the bonds, and is subject to adjustments if the condition of the anti-dilution provisions occurs subsequently. The conversion price will be reset based on the pricing model in the terms of the bonds on each effective date regulated by the terms. If the reset conversion price is higher than the conversion price before the reset, the conversion price will not be adjusted.
- (f) Redemption Method:
 - i. Redemption on the maturity date: Redeemed in cash at face value at the maturity date.
 - ii. Redemption before the maturity date: The Company may repurchase all the bonds outstanding in cash at the bonds' face value at any time after the following events occur: (i) the closing price of the Company common shares is above the then conversion price by 30% for 30 consecutive trading days during the period from the date after one month of the bonds issue to 40 days before the maturity date, or (ii) the outstanding balance of the bonds is less than 10% of total initial issue amount during the period from the date after one month of the bonds issue to 40 days before the maturity date.
 - iii. Under the terms of the bonds, all bonds redeemed, matured and converted are retired and not to be re-issued; all rights and obligations attached to the bonds are also extinguished.
- (g) For the six months ended June 30, 2018, the convertible corporate bonds with par value totaling \$25,500 have been converted into 959 thousands of ordinary shares, generating capital surplus of \$16,281 and resulting in a decrease of 'capital surplus - stock options' by \$1,077.
- (h) As of June 30, 2018, the convertible corporate bonds with par value totaling \$319,400 have been converted into 11,483 thousands of ordinary shares, generating capital surplus of \$205,032 and resulting in a decrease of 'capital surplus - stock options' by \$13,501.

B. Regarding the issuance of convertible bonds, the equity conversion options amounting to \$21,136 were separated from the liability component and were recognised in 'capital surplus - stock options' in accordance with IAS 32. The call options embedded in bonds payable were

separated from their host contracts and were recognised in ‘financial assets or liabilities at fair value through profit or loss’ in net amount in accordance with IAS 39 because the economic characteristics and risks of the embedded derivatives were not closely related to those of the host contracts. The effective interest rates of the bonds payable after such separation is 1.788%.

(13) Pensions

A. (a) The Company has a defined benefit pension plan in accordance with the Labor Standards Law, covering all regular employees’ service years prior to the enforcement of the Labor Pension Act on July 1, 2005 and service years thereafter of employees who chose to continue to be subject to the pension mechanism under the Law. Under the defined benefit pension plan, two units are accrued for each year of service for the first 15 years and one unit for each additional year thereafter, subject to a maximum of 45 units. Pension benefits are based on the number

of units accrued and the average monthly salaries and wages of the last 6 months prior to retirement. The Company contributes monthly an amount equal to 2% of the employees' monthly salaries and wages to the retirement fund deposited with Bank of Taiwan, the trustee, under the name of the independent retirement fund committee. Also, the Company would assess the balance in the aforementioned labor pension reserve account by the end of December 31, every year. If the account balance is insufficient to pay the pension calculated by the aforementioned method, to the employees expected to be qualified for retirement next year, the Company will make contributions to cover the deficit by next March.

- (b) For the aforementioned pension plan, the Group recognised pension costs of \$791, \$843, \$1,583 and \$1,686 for the three months and six months ended June 30, 2018 and 2017, respectively.
 - (c) Expected contributions to the defined benefit pension plan of the Company for the year ending December 31, 2019 amounts to \$5,234.
- B. (a) Effective July 1, 2005, the Company and its domestic subsidiaries has established a defined contribution pension plan (the "New Plan") under the Labor Pension Act (the "Act"), covering all regular employees with R.O.C. nationality. Under the New Plan, the Company contributes monthly an amount based on 6% of the employees' monthly salaries and wages to the employees' individual pension accounts at the Bureau of Labor Insurance. The benefits accrued are paid monthly or in lump sum upon termination of employment.
- (b) The Company's Mainland China subsidiaries have a defined contribution plan. Monthly contributions to an independent fund administered by the government in accordance with the pension regulations in the People's Republic of China (PRC) are based on certain percentage of employees' monthly salaries and wages. Other than the monthly contributions, the Group has no further obligations.
 - (c) Certain overseas subsidiaries have a defined contribution plan. Contributions to an independent fund are based on certain percentage of employees' monthly salaries and wages and are recognised as pension cost. Other than the monthly contributions, the Group has no further obligations.
 - (d) The pension costs under the defined contribution pension plans of the Group for the three months and six months ended June 30, 2018 and 2017 were \$22,672, \$24,131, \$43,920 and \$42,538, respectively.

(17) Retained earnings

- A. Under the Company's Articles of Incorporation, the current year's earnings, if any, shall first be used to pay all taxes and offset prior years' operating losses and then 10% of the remaining amount shall be set aside as legal reserve and special reserve. The remaining amount along with the prior years' unappropriated earnings are resolved by the Board of Directors and proposed to the stockholders for appropriation or reserve.
- B. The Company's dividend policy is summarized below: in consideration of the overall environment development and industrial growth, fulfilling future operation development needs as priority and optimizing financial structure, distribution of dividends shall not exceed 50% of the stock dividend distributed.
- C. Except for covering accumulated deficit or issuing new stocks or cash to shareholders in proportion to their share ownership, the legal reserve shall not be used for any other purpose. The use of legal reserve for the issuance of stocks or cash to shareholders in proportion to their share ownership is permitted, provided that the distribution of the reserve is limited to the portion in excess of 25% of the Company's paid-in capital.
- D. (a) In accordance with the regulations, the Company shall set aside special reserve from the debit balance on other equity items at the balance sheet date before distributing earnings. When debit balance on other equity items is reversed subsequently, the reversed amount could be included in the distributable earnings.
- (b) The amounts previously set aside by the Company as special reserve on initial application of IFRSs in accordance with Financial-Supervisory-Securities-Firms No. 1010012865, dated April 6, 2012, shall be reversed proportionately when the relevant assets are used, disposed of or reclassified subsequently.

C. Significant financial risks and degrees of financial risks

(a) Market risk

Foreign exchange risk

- i. The Group operates internationally and is exposed to exchange rate risk arising from the transactions of the Company and its subsidiaries used in various functional currency, primarily with respect to the USD, RMB, JPY and EUR. Exchange rate risk arises from future commercial transactions and recognised assets and liabilities.
- ii. Management has set up a policy to require group companies to manage their foreign exchange risk against their functional currency.
- iii. The Group's businesses involve some non-functional currency operations (the Company's and certain subsidiaries' functional currency: NTD; other certain subsidiaries' functional currency: USD, RMB, SGD, IDR, MMK and MYR). The information on assets and liabilities denominated in foreign currencies whose values would be materially affected by the exchange rate fluctuations is as follows:

Price risk

- i. The Group's equity securities, which are exposed to price risk, are the held financial assets at fair value through profit or loss and available-for-sale financial assets. To manage its price risk arising from investments in equity securities, the Group diversifies its portfolio. Diversification of the portfolio is done in accordance with the limits set by the Group.
- ii. The Group's investments in equity securities comprise listed and unlisted stocks. The prices of equity securities would change due to the change of the future value of investee companies. If the prices of these equity securities had increased/decreased by 1% with all other variables held constant, post-tax profit for the six months ended June 30, 2018 and 2017 would have increased/decreased by \$3,110 and \$78, respectively, as a result of gains/losses on equity securities classified as at fair value through profit or loss. Other components of equity would have increased/decreased by \$202, as a result of other comprehensive income classified as available-for-sale equity investment.

Cash flow and fair value interest rate risk

- i. The Group's main interest rate risk arises from bank borrowings with variable rates, which expose the Group to cash flow interest rate risk. For the six months ended June 30, 2018 and 2017, the Group's borrowings at variable rate were mainly denominated in NTD, USD, SGD and RMB.
- ii. The Group's borrowings are measured at amortised cost. The borrowings are periodically contractually repriced and to that extent are also exposed to the risk of future changes in market interest rates.
- iii. If the borrowing interest rate of NTD, USD, SGD and RMB had increased/decreased by 1% with all other variables held constant, profit, net of tax for the six months ended June 30, 2018 and 2017 would have decreased/increased by \$21,825 and \$13,859, respectively. The main factor is that changes in interest expense result in floating-rate borrowings.

(b) Credit risk

- i. Credit risk refers to the risk of financial loss to the Group arising from default by the clients or counterparties of financial instruments on the contract obligations. The main factor is that counterparties could not repay in full the accounts receivable based on the agreed terms.
- ii. The Group manages their credit risk taking into consideration the entire group's concern. For banks and financial institutions, only independently rated parties with a minimum rating of excellence are accepted. According to the Group's credit policy, each local entity in the Group is responsible for managing and analysing the credit risk for each of their new clients before standard payment and delivery terms and conditions are offered. Internal risk control assesses the credit quality of the customers, taking into account their financial position, past experience and other factors. Individual risk limits are set based

on internal or external ratings in accordance with limits set by the Board of Directors. The utilisation of credit limits is regularly monitored.

- iii. The Group adopts the following assumption under IFRS 9 to assess whether there has been a significant increase in credit risk on that instrument since initial recognition:
If the contract payments are past due over 30 days based on the terms, there is a significant increase in credit risk on that instrument since initial recognition.
- iv. The Group adopts the historical experience and industrial characteristics, the default occurs when the sale and construction contract payments are past due over 1 to 2 years in line with credit risk management procedure.
- v. The following indicators are used to determine whether the credit impairment of debt instruments has occurred:
- (i) It becomes probable that the issuer will enter bankruptcy or other financial reorganization due to their financial difficulties;
 - (ii) The disappearance of an active market for that financial asset because of financial difficulties;
 - (iii) Default or delinquency in interest or principal repayments;
 - (iv) Adverse changes in national or regional economic conditions that are expected to cause a default.
- vi. The Group classifies customers' accounts receivable in accordance with customer types. The Group applies the simplified approach using the provision matrix and loss rate methodology to estimate expected credit loss under the provision matrix basis.
- vii. The Group wrote-off the financial assets, which cannot be reasonably expected to be recovered, after initiating recourse procedures. However, the Group will continue executing the recourse procedures to secure their rights. On June 30, 2018, the Group has no written-off financial assets that are still under recourse procedures.
- viii. The Group used the forecastability of global boom information to adjust historical and timely information to assess the default possibility of notes and accounts receivable (including related parties). On June 30, 2018, the provision matrix and loss rate methodology are as follows:
- (i) Accounts receivable in relation to construction

<u>June 30, 2018</u>	<u>Expected loss rate</u>	<u>Total book value</u>	<u>Loss allowance</u>
Without past due	0%~0.1718%	\$ 1,335,270	\$ 439

Over 365 days	99.99%~100%	69,085	69,028
Total		<u>\$ 2,062,234</u>	<u>\$ 76,810</u>

(iii) Based on historical experience, the Group applies individual assessment to evaluate expected credit loss of the high-credit risk customers. On June 30, 2018, accounts receivable and loss allowance amounted to \$523,701 and \$344,050, respectively.

(iv) Due to the expected insignificant impairment, the Group applies individual assessment to evaluate expected credit loss of receivables due from construction warranties and notes receivables. On June 30, 2018, notes and accounts receivable and loss allowance amounted to \$366,859 and \$7,167, respectively.

ix. Movements in relation to the group applying the simplified approach to provide loss allowance for receivables (including notes and accounts receivable) are as follows:

	<u>Six months ended June 30, 2018</u>		
	<u>Notes receivable</u>	<u>Accounts receivable</u>	<u>Total</u>
At January 1_IAS 39	\$ 8,494	\$ 378,156	\$ 386,650

At June 30	<u>\$ 6,994</u>	<u>\$ 523,900</u>	<u>\$ 530,894</u>

For provisioned loss for the six months ended June 30, 2018, the impairment loss arising from customers' contracts is \$183,329.

x. Credit risk information of 2017 is provided in Note 12(4).

(c) Liquidity risk

i. The Group invests in financial assets measured at fair value through profit or loss in active markets, so it expects to sell the financial assets in markets with prices approximate to fair value. Financial assets at cost are not traded in active markets, thus, liquidity risk is expected. However, the Group's operating capital is sufficient to fulfill the Group's capital needs and it does not expect significant liquidity risk.

ii. The Group has the following undrawn borrowing facilities:

	<u>June 30, 2018</u>	<u>December 31, 2017</u>	<u>June 30, 2017</u>
Floating rate:			
Expiring beyond one year	\$ 200,000	\$ 400,000	\$ 400,000

(3) Fair value information

A. The different levels that the inputs to valuation techniques are used to measure fair value of financial and non-financial instruments have been defined as follows:

Level 1: Quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date. A market is regarded as active where a market in which transactions for the asset or liability take place with sufficient frequency and volume to provide pricing information on an ongoing basis. The fair value of the Group's investment in listed stocks is included in Level 1.

Level 2: Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly.

Level 3: Unobservable inputs for the asset or liability.

B. Financial instruments not measured at fair value

Except for financial assets at fair value through profit or loss and available-for-sale financial assets, the carrying amounts of cash and cash equivalents, notes receivable, accounts receivable (including related parties), contract assets (including related parties), construction contracts receivable (including related parties), other receivables, other financial assets (recorded as other current assets), financial assets measured at cost, guarantee deposits paid (recorded as other current and non-current assets), short-term borrowings, notes payable, accounts payable (including related parties), contract liabilities (including related parties), construction contracts payable (including related parties), other payables, long-term borrowings (including current portion) and guarantee deposits received (recorded as other non-current liabilities, others) are approximate to their fair values.

C. The related information of financial instruments measured at fair value by level on the basis of the nature, characteristics and risks of the assets are as follows:

(b)The methods and assumptions the Group used to measure fair value are as follows:

Instruments which use market quoted prices as their fair value (that is, Level 1), are using the closing prices of listed shares as market quoted prices based on characteristics of the instruments.

D. For the six months ended June 30, 2018 and 2017, there was no transfer between Level 1 and Level 2.

E. The following chart is the movement of Level 3 for the six months ended June 30, 2018 and 2017:

F. For the six months ended June 30, 2018 and 2017, there was no transfer into or out from Level 3.

G. Investment strategies segment is in charge of valuation procedures for fair value measurements being categorized within Level 3, which is to verify independent fair value of financial instruments. Such assessment is to ensure the valuation results are reasonable by applying independent information to make results close to current market conditions, confirming the resource of information is independent, reliable and in line with other resources and represented as the exercisable price, and frequently calibrating valuation model, updating inputs used to the valuation model and making any other necessary adjustments to the fair value.

H. The following is the qualitative information of significant unobservable inputs and sensitivity analysis of changes in significant unobservable inputs to valuation model used in Level 3 fair value measurement:

	Fair value at June 30, 2018	Valuation technique	Significant unobservable input	Range (weighted average)	Relationship of inputs to fair value
Non-derivative equity instrument :					
Unlisted shares	\$ 299,783	Market comparable companies	Note 1	Not applicable	Note 2

Note 2: The higher the multiple and control premium, the higher the fair value; the higher the discount for lack of marketability, the lower the fair value.

I. The Group has carefully assessed the valuation models and assumptions used to measure fair value. However, use of different valuation models or assumptions may result in different measurement. The following is the effect of profit or loss or of other comprehensive income from financial assets and liabilities categorized within Level 3 if the inputs used to valuation models have changed:

(4) Effects on initial application of IFRS 9 and information on application of IAS 39 in 2017

A. Summary of significant accounting policies adopted for the year ended December 31, 2017 and in the second quarter of 2017:

(a) Financial assets at fair value through profit or loss

- i. Financial assets at fair value through profit or loss are financial assets held for trading or financial assets designated as at fair value through profit or loss on initial recognition. Financial assets are classified in this category of held for trading if acquired principally for

the purpose of selling in the short-term.

- ii. Financial assets that are designated as at fair value through profit or loss on initial recognition are recognised using settlement date accounting.
- iii. Financial assets at fair value through profit or loss are initially recognised at fair value. Related transaction costs are expensed in profit or loss. These financial liabilities are subsequently remeasured and stated at fair value, and any changes in the fair value of these financial liabilities are recognised in profit or loss.

(b) Available for sale financial assets

- i. Available-for-sale financial assets are non-derivatives that are either designated in this category or not classified in any of the other categories.
- ii. On a regular way purchase or sale basis, available-for-sale financial assets are recognised and derecognised using trade date accounting.
- iii. Available-for-sale financial assets are initially recognised at fair value plus transaction costs. These financial assets are subsequently remeasured and stated at fair value, and any changes in the fair value of these financial assets are recognised in other comprehensive income. Investments in equity instruments that do not have a quoted market price in an active market and whose fair value cannot be reliably measured or derivatives that are linked to and must be settled by delivery of such unquoted equity instruments are presented in 'financial assets measured at cost'.

(c) Notes and accounts receivable

Accounts receivable are receivables originated by the entity. They are created by the entity by selling goods or providing services to customers in the ordinary course of business. They are recognised initially at fair value and subsequently measured at amortised cost using the effective interest method, less provision for impairment. However, short-term accounts receivable without bearing interest are subsequently measured at initial invoice amount as the effect of discounting is immaterial.

(d) Impairment of financial assets

- i. The Group assesses at each balance sheet date whether there is objective evidence that a financial asset or a group of financial assets is impaired as a result of one or more events that occurred after the initial recognition of the asset (a 'loss event') and that loss event (or events) has an impact on the estimated future cash flows of the financial asset or group of financial assets that can be reliably estimated.
- ii. The criteria that the Group uses to determine whether there is objective evidence of an impairment loss is as follows:
 - (i) Significant financial difficulty of the issuer or debtor;
 - (ii) A breach of contract, such as a default or delinquency in interest or principal payments;
 - (iii) The Group, for economic or legal reasons relating to the borrower's financial difficulty, granted the borrower a concession that a lender would not otherwise consider;

- (iv) It becomes probable that the borrower will enter bankruptcy or other financial reorganisation;
 - (v) The disappearance of an active market for that financial asset because of financial difficulties;
 - (vi) Observable data indicating that there is a measurable decrease in the estimated future cash flows from a group of financial assets since the initial recognition of those assets, although the decrease cannot yet be identified with the individual financial asset in the group, including adverse changes in the payment status of borrowers in the group or national or local economic conditions that correlate with defaults on the assets in the group;
 - (vii) Information about significant changes with an adverse effect that have taken place in the technology, market, economic or legal environment in which the issuer operates, and indicates that the cost of the investment in the equity instrument may not be recovered;
 - (viii) A significant or prolonged decline in the fair value of an investment in an equity instrument below its cost.
- iii. When the Group assesses that there has been objective evidence of impairment and an impairment loss has occurred, accounting for impairment is made as follows according to the category of financial assets:
- (i) Financial assets at amortised cost

The amount of the impairment loss is measured as the difference between the asset's carrying amount and the present value of estimated future cash flows discounted at the financial asset's original effective interest rate, and is recognised in profit or loss. If, in a subsequent period, the amount of the impairment loss decreases and the decrease can be related objectively to an event occurring after the impairment loss was recognised, the previously recognised impairment loss is reversed through profit or loss to the extent that the carrying amount of the asset does not exceed its amortised cost that would have been at the date of reversal had the impairment loss not been recognised previously. Impairment loss is recognised and reversed by adjusting the carrying amount of the asset through the use of an impairment allowance account.
 - (ii) Financial assets measured at cost

The amount of the impairment loss is measured as the difference between the asset's carrying amount and the present value of estimated future cash flows discounted at current market return rate of similar financial asset, and is recognised in profit or loss. Impairment loss recognised for this category shall not be reversed subsequently. Impairment loss is recognised by adjusting the carrying amount of the asset directly.

(iii) Available-for-sale financial assets

The amount of the impairment loss is measured as the difference between the asset's acquisition cost (less any principal repayment and amortisation) and current fair value, less any impairment loss on that financial asset previously recognised in profit or loss, and is reclassified from 'other comprehensive income' to 'profit or loss'. If, in a subsequent period, the fair value of an investment in a debt instrument increases, and the increase can be related objectively to an event occurring after the impairment loss was recognised, such impairment loss is reversed through profit or loss. Impairment loss of an investment in an equity instrument recognised in profit or loss shall not be reversed through profit or loss. Impairment loss is recognised and reversed by adjusting the carrying amount of the asset through the use of an impairment allowance account.

B. The reconciliations of carrying amount of financial assets transferred from December 31, 2017, IAS 39, to January 1, 2018, IFRS 9, were as follows:

	Financial assets at fair value through profit or loss	Available-for-sale financial assets	Measured at cost	Accounts receivable, net	Total	Effects		
						Retained earnings	Other equity	Non-controlling interests
IAS 39	\$ 17,143	\$ 41,502	\$ 279,343	\$ 3,898,907	\$ 4,236,895	\$ -	\$ -	\$ -

(a) Under IAS 39, the equity instruments, which were classified as: financial assets at fair value through profit or loss, available-for-sale financial assets, financial assets at cost, amounting to \$17,143, \$41,502 and \$279,343, respectively, were reclassified as "financial assets at fair value through profit or loss (equity instruments)" amounting to \$363,792, increased retained earnings and decreased other equity interest in the amounts of \$48,817 and \$23,013 under IFRS 9.

(b) In line with the regulations of IFRS 9 on provision for impairment, accounts receivable was reduced by \$29,297, retained earnings decreased by \$29,502 and non-controlling interest increased by \$205.

C. The reconciliation of allowance for impairment and provision from December 31, 2017, as these are impaired under IAS 39, to January 1, 2018, as these are expected to be impaired under IFRS 9, are as follows:

	<u>Allowance for uncollectible accounts</u>	
IAS 39	\$	386,650
Impairment loss adjustment		29,502
Non-controlling interests adjustment	(205)
IFRS 9	\$	<u>415,947</u>

D. The significant accounts as of December 31, 2017 and June 30, 2017 are as follows:

(a) Financial assets at fair value through profit or loss

	<u>December 31, 2017</u>	<u>June 30, 2017</u>
Financial assets held for trading		
Listed stocks	\$ 7,439	\$ 7,592

	7,689	7,842
Valuation adjustment	<u>9,454</u>	<u>2,369</u>
Total	<u>\$ 17,143</u>	<u>\$ 10,211</u>

- i. The Group recognised net gain of \$302 and \$2,765 on financial assets held for trading for the three months and six months ended June 30, 2017.
- ii. The Group recognised net gain of \$39 and \$149 on the call provision of convertible corporate bonds issued by the Company for the three months and six months ended June 30, 2017.
- iii. The Group has no financial assets at fair value through profit or loss pledged to others.

(b) Available-for-sale financial assets-current

Valuation adjustment	<u>23,013</u>	<u>22,281</u>
Total	<u>\$ 41,502</u>	<u>\$ 42,470</u>

- i. The Company has recognised changes in fair value of the unrealised gains on available-for-sale financial assets in profit or loss and in other comprehensive loss amounting to \$732 and (\$7,127) for the three months and six months ended June 30, 2017.
- ii. The Group has no available-for-sale financial assets pledged as collateral.

(c) Financial assets measured at cost

	<u>December 31, 2017</u>	<u>June 30, 2017</u>
Non-current items:		
Taiwan Intelligent Fiber Optic Network Co., Ltd.	\$ 44,024	\$ 44,024

Others (companies individually not exceeding \$10,000)	61,509	64,147
Total	<u>\$ 279,343</u>	<u>\$ 247,584</u>

- i. Based on the Group's investment purpose, the abovementioned stocks held by the Group shall be classified as 'available-for-sale financial assets'. However, as the stocks are not traded in an active market, and no sufficient industry information of companies similar to the abovementioned companies can be obtained, the fair value of the stocks cannot be measured reliably. Accordingly, the Group classified those stocks as 'financial assets at cost – non-current'.
- ii. The Group has no financial assets measured at cost pledged to others.
- iii. As of June 30, 2018, the net value of VEEV Interactive Pte. Ltd. has significantly declined and is lower than its original investment cost at period end based on the Company's assessment. Because the investment value of the equity had been impaired, the Company provided an impairment loss in the amount of \$7,600.

E. Credit risk information for the year ended December 31, 2017 and the six months ended June 30, 2017 are as follows:

- (a) Credit risk refers to the risk of financial loss to the Group arising from default by the clients or counterparties of financial instruments on the contract obligations. This is described as below:
 - i. The Group has assessed the credit status of counterparties upon sale of products and goods or services. So it expects that the probability of counterparty default is remote. The Group's maximum exposure to credit risk at balance sheet date is the carrying amount.
 - ii. Internal risk control assesses the credit quality of the customers, taking into account their financial position, past experience and other factors. Individual risk limits are set based on

internal or external ratings in accordance with limits set by the Board of Directors. The utilisation of credit limits is regularly monitored.

- iii. Credit risk arises from cash and cash equivalents and deposits with banks and financial institutions, as well as credit exposures to customers, including outstanding receivables.
 - iv. For banks and financial institutions, only rated parties with good ratings are accepted.
 - v. The endorsements and guarantees provided by the Group are all in accordance with "Regulations Governing Loaning of Funds and Making of Endorsements/ Guarantees by Public Companies". The Group knows the credit status of endorsees well and does not require any security. If there is any non-performance, the performance amount is the possible credit risk.
- (b) For the six months ended June 30, 2017, no credit limits were exceeded during the reporting periods, and management does not expect any significant losses from non-performance by these counterparties.
- (c) The ageing analysis of notes and accounts receivable (including related parties) that were past due but not impaired is calculated from the past due date as follows:

	<u>December 31, 2017</u>	<u>June 30, 2017</u>
Up to 90 days	\$ 474,429	\$ 492,787
91 to 180 days	97,506	154,178
181 to 365 days	167,665	266,265
Over 365 days	423,579	381,716
	<u>\$ 1,163,179</u>	<u>\$ 1,294,946</u>

- (d) Movement analysis of notes and accounts receivable (including related parties) that were impaired is as follows:
- i. As of December 31, 2017 and June 30, 2017, the Group's notes and accounts receivable that were impaired amounted to \$386,650 and \$442,126, respectively.
 - ii. Movements on the Group's provision for impairment of notes and accounts receivable (including related parties) are as follows:

	<u>Six months ended June 30, 2017</u>		
	<u>Individual provision</u>	<u>Group provision</u>	<u>Total</u>
At January 1	\$ 207,856	\$ 198,525	\$ 406,381

At June 30	<u>\$ 237,372</u>	<u>\$ 204,754</u>	<u>\$ 442,126</u>

- (e) The credit quality of notes and accounts receivable (including related parties) that were neither past due nor impaired was in the following categories based on the Group's Credit Quality Control Policy:

	December 31, 2017	June 30, 2017
Type A	\$ 23,382	\$ 2,549
Type B	1,794,437	1,335,170
Type C	1,085,224	851,702
	<u>\$ 2,903,043</u>	<u>\$ 2,189,421</u>

Type A: No credit limit. Clients include government institutions and government-owned corporations.

Type B: Credit limit is 130% of the average of transactions in the past year. Clients are counterparties whose average annual transactions reach NT\$30,000 for the most recent 3 years and who have stable sales and optimal financials.

Type C: Credit limit is gained through assessment based on 'Client Credit Ranking Sheet'.

(5) Effects of initial application of IFRS 15 and information on application of IAS 11 and IAS 18 in 2017

A. The significant accounting policies applied on revenue recognition for the year ended December 31, 2017 and the six months ended June 30, 2017 are set out below.

(a) Construction revenue/construction contracts

- i. IAS 11, 'Construction Contracts', defines a construction contract as a contract specifically negotiated for the construction of an asset. If the outcome of a construction contract can be estimated reliably and it is probable that this contract would make a profit, contract revenue is recognised by reference to the stage of completion of the contract activity, using the percentage-of-completion method of accounting, over the contract term. Contract costs are expensed as incurred. The stage of completion of a contract is measured by the proportion of contract costs incurred for work performed to date to the estimated total costs for the contract. An expected loss where total contract costs will exceed total contract revenue on a construction contract is recognised as an expense as soon as such loss is probable. If the outcome of a construction contract cannot be estimated reliably, contract revenue is recognised only to the extent of contract costs incurred that it is probable will be recoverable.
- ii. Contract revenue should include the revenue arising from variations from the original contract work, claims and incentive payments that are agreed by the customer and can be measured reliably.
- iii. The excess of the cumulative costs incurred plus recognised profits (less recognised losses) over the progress billings on each construction contract is presented as an asset within 'receivables from customers on construction contracts'. While, the excess of the progress billings over the cumulative costs incurred plus recognised profits (less recognised losses)

on each construction contract is presented as a liability within ‘Construction contracts payables’.

(b) Sales of goods

Sales revenue is measured at the fair value of the consideration received or receivable for the sale of goods (products) to external customers in the ordinary course of the Group’s activities. Revenue arising from the sales of goods (products) is recognised when the Group has delivered the goods (products) to the customer, the amount of sales revenue can be measured reliably and it is probable that the future economic benefits associated with the transaction will flow to the entity. The delivery of goods is completed when the significant risks and rewards of ownership have been transferred to the customer, the Group retains neither continuing managerial involvement to the degree usually associated with ownership nor effective control over the goods (products) sold, and the customer has accepted the goods (products) based on the sales contract or there is objective evidence showing that all acceptance provisions have been satisfied.

B. The revenues recognised by using above accounting policies for the six months ended June 30, 2017 are as follows:

	<u>Three months ended June 30, 2017</u>	
Construction revenue	\$	2,384,440
Sales revenue		2,198,185
Other operating revenue		304,824
Total	\$	<u>4,887,449</u>
	<u>Six months ended June 30, 2018</u>	
Construction revenue	\$	4,810,638
Sales revenue		4,653,664
Other operating revenue		617,015
Total	\$	<u>10,081,317</u>

C. The construction contract receivable/payable recognised by using above construction contract accounting policies as of December 31, 2017 and June 30, 2017 are as follows:

	<u>December 31, 2017</u>	<u>June 30, 2017</u>
Aggregate costs incurred plus recognised profits (less recognised losses)	\$ 26,582,074	\$ 25,803,787
Less: Progress billings	(25,269,321)	(23,800,144)

Presented as:		
Receivables from customers on construction contracts	\$ 3,163,858	\$ 3,326,348
Payables to customers on construction contracts	(1,851,105)	(1,322,705)
	<u>\$ 1,312,753</u>	<u>\$ 2,003,643</u>
Retentions relating to construction contracts	<u>\$ 46,151</u>	<u>\$ 92,601</u>
Advances received before the related construction work is performed	<u>\$ 599,077</u>	<u>\$ 176,957</u>

D. For the six months ended June 30, 2018, the effects and description of current balance sheets and comprehensive income statements if the Group continues adopting above accounting policies are as follows:

Comprehensive income statement items: No effects.

- (a) Under IFRS 15, construction contracts whereby services have been rendered but not yet billed are recognised as contract assets, but were previously presented as part of due from customers for contract work in the balance sheet.
- (b) Under IFRS 15, contract liabilities in relation to construction contracts are recognised as contract liabilities, but were previously presented as due to customers for contract work in the balance sheet.

(c) Under IFRS 15, contract liabilities in relation to sales contracts are recognised as contract liabilities, but were previously presented as advance sales receipts in the balance sheet.

13. SUPPLEMENTARY DISCLOSURES

(1) Significant transactions information
